A 5-day intensive spiritual quest through the profound experience of Sacred healing, Cosmic alignment and Divine Connection.

Unique from any workshop experience, the Mystical Gateway is held on-site at TOSA La Laguna, Guatemala. Gift yourself with basking in high frequency energy all day long! Embrace the precious gift of being in the cocoon of Inter-dimensional energies during your entire journey at beautiful Lake Atitlan, (recognized as the most beautiful lake in the world!) This is a powerful and transformative spiritual experience!

Each spirit-filled day is lovingly created to bring you teachings from the Crystalline Dimensions together with direct experience of inter-dimensional space. You will be guided through breath-work, meditations, and advanced Self-Ascension practices.

Your day will begin with a nourishing meal lovingly prepared to support the day's adventure beyond space and time. Take this time to breathe, appreciate the beauty and prepare for your day.

Your group experiences will be interspersed with quality personal time at this stunning Private Nature Reserve. We will offer you assignments and experiences that are intended to help you relax your own barriers to expansion and open the limitless gift of your divine freedom!

Your tuition is all inclusive within Guatemala!

Double occupancy lodging on-site in a stunning casita with lake view, all meals, (*Strictly TOSA Spa Cuisine*), transportation between the airport and Lake Atitlan, along with your boat transportation are all included in your tuition.

We will support you to keep the "density interactions" to minimum! This will help you anchor the vibrational frequencies you came to experience without any interference or distractions.

The group size is limited, thus offering each participant an opportunity for extensive personal interaction and guidance with Sri, Kira and the Archangelic realm. You will also receive a private counseling session to support your personal needs.

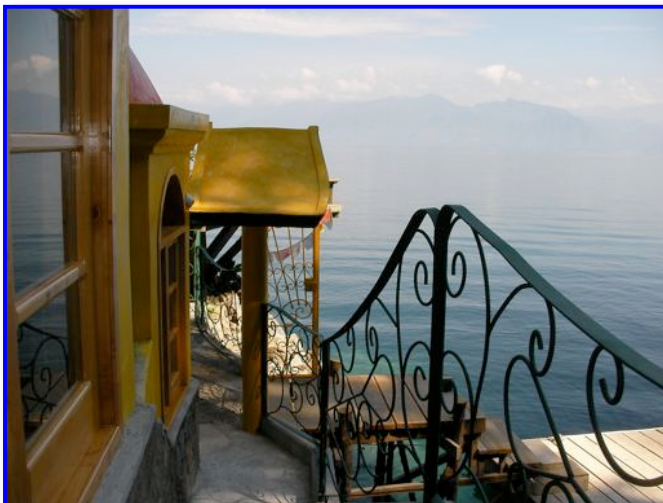

There will be long periods of silence and outdoor communion at the lake. We will enjoy star gazing and sun gazing! You will be offered an attunement into a Crystalline Ray symbol. Beyond this description, words become inadequate, this is the ultimate journey of the heart!

Pre-requisite: The high frequency energies of the Mystical Gateway will trigger emotional instability in those who have not fully integrated the Violet Ray energy (Navigating the Inner Matrix) and the Golden Ray energies. The inner child carries our wounds and it is important that you have done preparatory work in learning how to navigate "trigger moments." Group interactions may

sometimes stimulate emotional imbalances. It is important that you have

some experience in working through your own content and finding your center prior to embarking on this journey.

Each participant must look deeply within and decide if they are ready to anchor true spiritual tenacity.

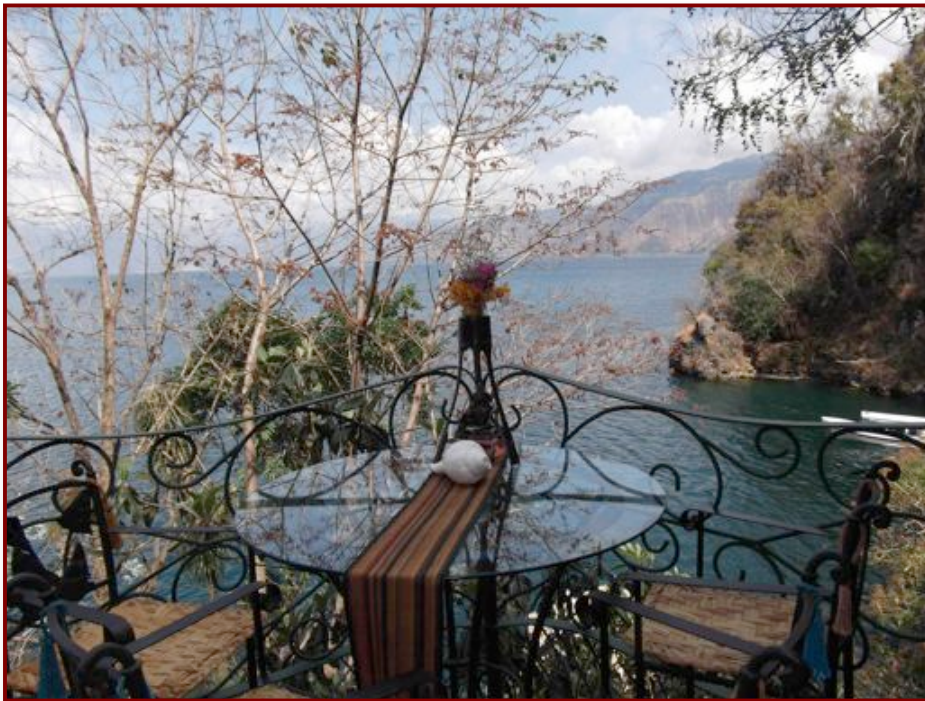

The Mystical Gateway will bring to the surface for healing ANY AND ALL remaining attachments, density alignments and emotional constrictions.

Imagine Freeing your heart, freeing your soul, and releasing ALL remaining limiting beliefs.

Let this journey restore your life through the fullness of anchoring into the Crystalline Dimensions!

You Are Ready!

Due to the high frequency alignments and energies that will be anchored daily, we insist that all participants are committed to the Soul Nourishment program PRIOR to your arrival. *If you have been ingesting a more traditional diet then you will have challenges as the environment here at TOSA together with the vegan Spa Cuisine meals we serve will likely trigger a "healing crisis."* If you are presently a partial-vegetarian, then we ask that you immediately reacquaint yourself with Soul Nourishment and adopt a vegan diet.

A beautiful Spa Cuisine meal tastes even better with a stunning view!

Each participant is asked to complete a 4-day lemon water or fresh-juice fast within the month prior to attending this program. We will send additional guidelines for this fast to you in November.

Your investment for this experience is \$2,285 which includes all meals, transportation and lodging once you arrive at Lake Atitlan in Guatemala. Payment plans are available and please ask for details.

A Mystical Journey group sharing a powerful moment at the ceremonial site while sharing a grateful Thank You to TOSA resident staff member Jose... your boatman and on- site reserve guide.

We trust and know that those who are guided to this experience will take action!

Together we will co-create a powerful life-enhancing experience that will support and accelerate your soul's mission for this life-time and beyond.

Humanity is at a crucial moment, the call of your heart is the GIFT that is present to be anchored for all!
