The Sacred Trinity Speaks:

(Described as the energy of all Mary's, The Essenah Brethren and The Blue Starborn)

Namaste Beloved beings of great light, love, illumination, joy, and presence!
Namaste...Namaste...Namaste...Namaste.

Beloved ones of a great and glorious universal experience of divine expansion...
Our heart expands a thousand fold to envelop your planet now.

Drifting apart as she has felt herself, we offer an energetic pillow, an energetic opportunity
for her to find rest inside of a heart. A heart of ignited light, a heart of ignited energy,
and a heart of ignited womb-like re-creation.

***For deep within the recesses of a heart of energy is a sacred womb, a sacred container.
A sacred birthing chamber from which all energy quietly, tranquilly,
lovingly and effortlessly, returns and re-births... returns and re-births.***

The Great Womb

Within the energetic chambers of the divine energies that have co-created the experience of universal life that you are with now, the moment of the great womb has reappeared.

You are in a womb beloved ones.

And oftentimes, when you are in the womb, and the noticing of the individu-will reorganizes itself, the womb can become uncomfortable.

This is a gift. This is a gift.

In the energetic womb of the divine chamber of re-birth that all beings within a planet of re-birth are in now, the discomfort comes as the *in-divid-u-will* recognizes itself again. This is a gift that is given to create the birth moment.

One cannot birth without the moment of recognition that causes the need, the desire and the understanding that one cannot stay in the womb forever, and yet there are many who wish to.

"Please let me stay in the womb. All of my needs are met here. Please let me stay in the womb. I do not need to do anything on my own."

You see beloved ones, your divine Gaia, your divine planet, has carried you. Your mother has held you in her eternal womb for a very long time. And as any mother who is ready to complete her pregnancy can share with you, there comes a moment when the mother is also ready for the child to birth. When the mother is needing her moment of recuperation. When the womb must expel that which it has created.

And so we come with great, great energy, light, and love. We offer a pillow for this birth to be soft. We offer a cocoon, a divine energetic layer, to help cushion the delivery process. For this is the process that the planetary experience is offering to all now.

The Divine Spark: The Unification Molecule

If you feel deep within the wisdom of your divine heart, you recognize a greater awakening of an *in-divid-u-will*, yet alongside of this beautiful *in-divid-u-will*, is an energy of Divine Unification, an energy of oneness.

It is that spark.

Many have many names for this. We shall offer you spark.

And we offer you this word spark, this divine spark, because it is ever-illuminated!

It is ever bright!

It is ever radiant!

THE MIRACLE OF SERVICE SERIES : 12 STEPS TO ASCENSION

*This divine spark is what you know, what we have offered, what has been encoded,
as a Unification Molecule of divine essence that
illuminates only when the in-divid-u-will can
take birth with the great sense of connection, not separation.*

The Energy of the Six

Beloved ones, in the energy of the six,
which is hugely upon you now, six is the middle trinity.

Six is the three and the three
united in the form of what you know as merkabah...Merkabah.

And in the center of the merkabah,
as it elongates into the ascension principles and the divine energy...
in the center of the merkabah
is where the Unification Molecule has been held.

*And within each being,
in the fabric of the universal connection are the Codes of Ignition¹...
the Codes of Ignition.*

¹ Referring to the Unification Molecule

Activating the Ignition Code of the Unification Molecule

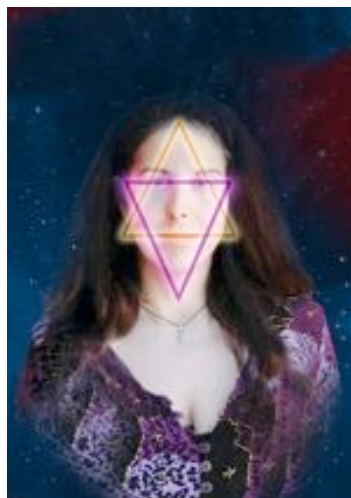

We smile with the delight of reminding you that these codes of ignition are literally as plain as your face!

Open your hands.
Take the thumb digit –
or the energy of the thumb digit if
your thumb digit does not exist.
Touch the thumb energy to your middle finger and release it.
Take the energy of the middle.
Connect the two and open and close.

And then take the middles and the ignited energy²,
placing one at the top, the very top, of the forehead³,
placing the other in the central part of the neck⁴.

This is the top and the bottom of the middle trinity of the facial merkabah.
This merkabah is one of several merkabahs that encompasses the body, **for there are many**.
Yet igniting this merkabah ignites greater recognition and eases the birth that is upon thee.

This illustration shows the top and bottom placement of the Facial Merkabah

² Referring to the activated energy that is now connected between the middle fingers and the thumbs

³ Take one of the middle fingers, does not matter which hand, and place it at the top of the forehead

⁴ Take the other middle finger and place it at the base of the throat

Igniting Upper Egypt

We shall begin with this top ignition. Beginning here⁵.
If you were to take these two fingers,
tracing along the outside of the eye,
down to where your mouth is and coming across...
this is the upper pyramid.

***Just as Egypt had Upper Egypt and Lower Egypt,
this upper pyramid, these upper realms,
the heavenly realms,
the cosmic connectors... are here... here... here.***

Feel this energy.

You may even wish to gently close your eyes and ignite this upper region, this cosmic pyramid with golden light.
Feeling the sacred geometric energy of this trinity as you have carried it forth now.
Simply ignite it with golden light.

Upper Egypt, the upper realms, the upper cosmos.

Igniting Lower Egypt

Now, beloved ones, feel the point of the lower pyramid
as it begins here in this central area of the neck.

Taking those same two middles⁶,
you come up using the sides of your mouth.
Come up, sides of the mouth up to the eyes,
coming straight across the eyes.

This is Lower Egypt.

This is the pyramid of the Gaia experience.

⁵ Reference to the top pyramid of the merkabah and the starting point at the top of the forehead.

⁶ Reference to the same ignited middle fingers that began at the top of the forehead

Unifying Upper and Lower Egypt

The upper cosmic experience and the lower Gaia experience, together united on your face in a structure that carries your own universal merkabah geometric understanding⁷.

Simply breathe into Lower Egypt.

Breathe into the lower pyramid, the Gaia pyramid, and feel it with a beautiful violet energy.

Draw up a violet flame of light illuminating from the heart center, sending it into the base of this pyramid, igniting this pyramid with violet energy.

And simply feel it as a great funnel opening up and sending great, great, great energy, up and around, illuminating your ascended crown chakra with greater presence, greater love, and greater harmony.

For the energy of the six is the beautiful gift of this harmonic union.

Lower Egypt and Upper Egypt joined together, feeling the harmony of the violet and the gold!

Beloved ones, as you ignite this, you begin to experience and hear within thee what many refer to as the Nile, the sacred river of all divine illuminated energy. And you carry yourself on this river and begin to transverse the cosmic world of many, many lifetimes.

For here in this transverse area, you begin to discover the Unification Molecule again.

And yet, this activation is just beginning!

Breathe in and feel.

Breathe out and know.

Breathe in and feel. Breathe out and know. Unify these two gifts together with brilliant light.

⁷ For several years the Masters have shared that each has chosen their specific facial features to carry a very personal Merkabah energy of Divine remembrance and connection. You are your own sacred geometry.

The Sacred Trinity Reveals Itself

You may ask who we are that have come to be with you today. Beloved ones, we are a sacred trinity ourselves. Many know us as the Mary trinity. Many know us as the Essenah. Many know us as the Blue Starborn.

The energy of the many Mary, the energy of the Essenah, and the energy of the Blue Starborn.

We, as a single trinity, are carrying the energy of the rebirth.

We are here to help assist with an easy delivery out of the womb.

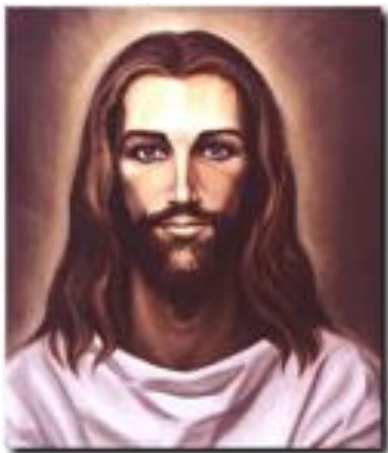

Our abode exists over the country you currently know as Israel, closer to the border of what you know as Palestine⁸.

Our abode sits here in the middle, here in the place of balance.

And it is here in this sacred valley of your world, this sacred womb energy, that our abode holds a great ray of light that is seeking now a great moment.

With us is our beloved brethren Yeshua, and beloved Yeshua offers to you now a great gaze of divine, inspired pure love.

I am here beloved ones⁹. I am here beloved ones.

My presence is in this abode floating in the sacred space in the multi-dimensional realm above the ancient Israel.

Try not to confuse me in the energy of confusion that is on your planet now.

If you feel connected to my energy at all, then may it ignite the energy within the to be fully awake in the presence of your divine nature... to not doubt your miracle-working energy.

To raise a Lazarus is to raise thyself.

To let go of blindness is to no longer be blind thyself.

To convert water into the wine of eternal life is to let go of the illusion that you are less than that now.

⁸ The map inserted here is to assist you to reference the location of the abode only. It is not intended to offer any suggestion of what is Israel or Palestine today. Based upon the comments of the Sacred Trinity, the center of the abode seems to directly over Jerusalem.

⁹ At this moment, Kira Raa's voice and demeanor shifted, and the Sacred Trinity quieted to allow this precious & direct communion.

Beloved Yeshua Continues Speaking:

In the energetic streams of all that has ever been, you are forever.

In the cosmic moment, in the timeline that is before thee now, there is a great and sacred moment that will challenge all humanity who is not prepared to command their light.

To command your light now is to no longer suffer the pain of a density expression that uses suffering to trap you.

You cannot be trapped. You can only willingly be bound.

There is a great and definite moment of freedom before you now, and you are limitlessly here and we are limitlessly with thee.

Beyond the realms of now, for even a now is a limited moment, beyond the realms of now is the limitless expression that is one with you, that assisted to create the experience that you are with now, and that you assisted to create with it.

The middle of your planet where we sit in our abode and offer continual streams of light and love and presence is in great turmoil and ready for great infusions of light.

Allow your infusion of light to soften the heart-pillow, to join with us, to be one in this pillow.

And yet your infusion of light is always with us.

We are here now as you are here now. All who are still in form have stayed in form, and are in form to be in communion with the great expression of light.

Breathe deeply, understand and Be.

We have offered to you today much information and we offer to you to be gentle as you allow it to expand.

We love you.

We are with you!
